

SafeBreast web page outline and user interface

No loading page!!

# Welcome page

Same as coming soon page but with the buttons and the table of contents on top. I will send you white paper this evening also to link in

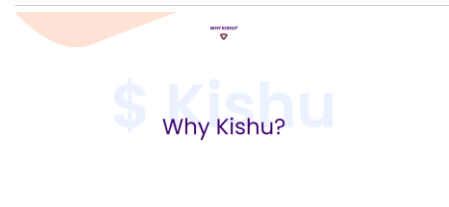

Change the colors-> so it matches with the button in the top right corner

# Page 2: Why SafeBreast

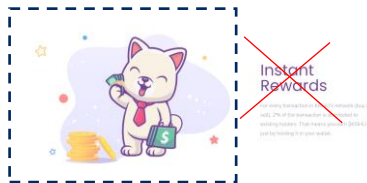

Icons coming

Slide 1

\$Breast  
Explained

Slide 2

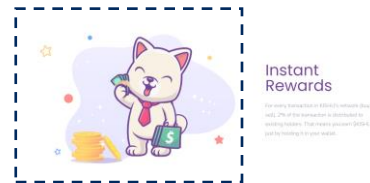

## Charity Contribution

For every transaction in the SafeBreast network (buy or sell), 2% of the transaction is automatically converted to ethereum and can be donated without needing to sell any coins

<https://etherscan.io/address/0x6ae55e8c0355a61913ff4818afbe06a17eac005>

Add the etherscan link:  
similar to the one in safe and secure (far right)

Slide 3

## Holder Rewards

Of all buy or sell transactions in the SafeBreast network 2% will be distributed to existing holders. That means you earn \$BREAST just by holding it. Remember to go back and check your wallet once in a while 🌴🌴

We also burned 35% of total supply, so if as this wallet gets rewards the number of circulating coins will decrease

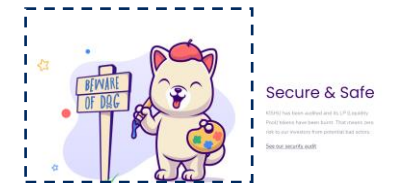

Slide 4

## Community Driven

SafeBreast is 100% community driven. Where the full team are holders from the very launch of this token, but we are always expanding and want as many people as possible to get involved The team and community love watching their own wallets and the charity wallet grow

Slide 5

## Transparent and trusted

The crypto space sees a lot of mistrust and lack of transparency. SafeBreast strives to be a beacon for trust and transparency in everything we do, be it everything from launching new features to donating to charity

# Page 3: How to buy

**HOW TO BUY HOKK**

The safest place to buy HOKK is HOKKX (use 3-4% slippage)

[VIEW PRICE CHART ->](#)

**Step 1: Install MetaMask For Chrome**

Open your Google Chrome and visit [metamask.io](https://metamask.io). Download the MetaMask chrome extension and set up a wallet. On mobile? Get MetaMask's app for iPhone or Android.

**Step 2: Send \$ETH To MetaMask**

Transfer \$ETH to your new MetaMask wallet from your existing wallet (e.g. Trust Wallet, Coinbase, or Binance), or buy \$ETH directly within MetaMask.

**Step 3: Connect To Hokkx**

The safest place to buy \$HOKK is on HOKKX. Visit HOKKX and click "connect wallet". MetaMask will ask for your signature, go ahead and sign it.

**Step 4: Swap \$ETH For \$HOKK**

Set your slippage to 3-4% and enter and the amount of \$ETH you would like to swap for \$HOKK.

Use text from Hokk in our website

## How to buy \$Kishu

BUY \$KISHU

BUY \$KISHU

BUY \$KISHU

STEP 3

STEP 4

01

### Create a MetaMask Wallet

\$KISHU token is available on the Ethereum blockchain. MetaMask is the market leader in ERC20 (Ethereum) wallets. On Google Chrome, visit [metamask.io](https://metamask.io) to download the extension and set up a wallet. On mobile? Get MetaMask's app for **iPhone** or **Android**.

Use icons similar to hokk instead of circles with steps. That means the the large text you include **Step 1..** exactly like hokk

## Our cause..

One in eight women in their lifetime will experience breast cancer. This is something the SafeBreast community cares deeply about. The more transactions on the SafeBreast network the more we are able to raise. Thus, you can help by donating to marketing wallet, or you can donate directly to the charity wallet and the SafeBreast community team will make sure to donate it well on your behalf ❤️

We accept any ERC 20 token
